Declaration

Product: HDPE- BAGS delivered to Fleischerverband eGen

We confirm that the a.m. product fulfils the requirements on materials used for articles intended to come into contact with food as described in:

- **Regulation (EC) 1935/2004**
- **Regulation (EC) No 10/2011 (up to room-temperature)**
- **Regulation (EC) 2023/2006**
- **Regulation (EC) No. 94/62**
- **94/62EC**

Traceability:

FISCHER-*PLASTIK* has implemented appropriate systems and procedures that ensure traceability at all stages of production. Units of quantities are marked – usually with order confirmation numbers – in order to trace back the supply chain.

Usage:

At room temperature resistant to inorganic acids (highly oxidizing excluded), bases, salts and their solutions, marginal swelling in case of contact with alcohol, fat, oil (of animal or vegetable origin) and wax possible. The customer is responsible for the appropriate, safe and legal use, processing and handling of our products.

Storage: Store our packaging means in dry storehouses at temperatures below 50 °C. Polyethylene should not be exposed to UV radiation. FISCHER-*PLASTIK* does not take responsibility for any damages caused by adverse storage. Storable at least for eight months.

Place and Date of issue
Allhaming 27-4-2016
